

Moving homeless families and individuals to high levels of self-reliance.

## A New Beginning

[Read Richard's full story here](#)

We recently helped Richard\*. He had been injured at work; his wife was involved in drugs and alcohol and had been hitting their son with a hanger.

"Without Next Move, I don't know where we would be. They have helped us with counseling, a place to go, food, and just the basics."

Two years have passed and Richard now has a job with Sacramento County, he is moving out of the Next Move apartment and into one of his own. His son is a basketball-loving second grader.

"I still have tough days; my son asks for his mom. It's hard to be Mom and Dad. But I know if I need help, that Next Move will be there."

As the weather worsens, the need for housing spikes. People like you are helping to provide the funds and necessities that help thousands of individuals and families, like Richard, make it through the season.

You can help us reverse this trend and end our year strong, prepared to face whatever lies ahead.

## Safelite AutoGlass Grants \$25,000 for Shelter

Next Move was recently awarded a \$25,000 grant from Safelite AutoGlass to renovate a new shelter facility in Sacramento. For over a year, this property has been vacant due to the inability to comply with costly city code standards and facilities improvements. With the Safelite grant, Next Move will be able to bring the property up to code, enabling the organization to provide housing for 8 families per year.

The legacy of the upgrade of this facility will live on to help hundreds of families in the future, not only with shelter but with additional life skills services, success plans, job training and intensive case management.

**THANK YOU FOR YOUR GENEROSITY THIS  
YEAR!**

**SEASON'S GREETINGS FROM ALL OF US AT  
NEXT MOVE AND FRANCIS HOUSE**
